For nearly 60 Years we’ve had a Handle on chronic arthritis joint pain management.
Since 1962, the Therabath Professional Paraffin Wax Bath has proudly been manufactured to FDA Class II Medical Device standards in the USA. Our team hand assembles and tests each Therabath unit ensuring that every single one leaves our factory durable, safe, and reliable.

As a single-line brand, we work as a team to maintain our unsurpassed level of expertise in the paraffin therapy market. We focus our marketing efforts on educating end-users and professionals on paraffin therapy benefits and proper treatment techniques.

With just 25 employees and on-site manufacturing, we have total control over quality evident in our products.

The secret to our longevity? A true passion for improving lives and getting arthritis pain sufferers back to enjoying the things they most enjoy in life! Each patient, client or homeowner will experience the benefit of paraffin therapy with every use, along with a renewed energy to enjoy life, hands-on!

Benefits of paraffin thermotherapy:

Medical

- Provides therapeutic relief of pain due to arthritis, joint inflammation, muscle stiffness, and injury.
- Provides instant warmth and relaxation
- Increases circulation promoting renewed tissue
- The high thermal-conductivity of paraffin wax provides a treatment that may penetrate deeper into tissue than other therapies.

Aesthetics and Spa

- Topically moisturizes skin
- Plumps and hydrates to minimize the appearance of fine lines and wrinkles
- Opens pores to detoxify
- Leaves skin soft and healthy looking

Soft, Warm, Comforting Paraffin
a most requested therapeutic treatment

For over 90 years, paraffin moist heat therapy has been used to relieve pain, inflammation, and stiffness in muscles and joints. In fact, paraffin therapy is recognized by the FDA as a heat modality for arthritis pain! The warm paraffin instantly forms a shell as it begins to cool on the skin of the treatment area (hand, foot or elbow) as it is immersed in the wax. This shell (or “glove”) seals in the heat effectively increasing circulation/blood flow and causing perspiration. The increase in blood flow helps to promote new tissue generation, while the perspiration trapped under the glove moisturizes the skin from the inside out.
The Therabath Difference
experience, safety and service.

Therabath Professional Paraffin Bath units are hand-assembled and tested in our Minnesota factory ensuring that each and every one leaves durable, safe, and reliable. The Therabath is the single USA made paraffin bath approved for sale in Canada and Europe (EU).

- Made in the USA since 1962
- Designed for reliable 24/7 operation
- Large tank accommodates up to a men’s size 14 (US) foot
- 110V and 220V electrical options available

Therabath Model TB6 paraffin units feature a deeper, 9lb maximum wax capacity tank in the same portable table top footprint as previous 6lb models. This equates to 25% more treatments, or, 15% higher wax coverage when dipping!

Unsurpassed 5-Year Limited Warranty
Under normal use and service, the Therabath 5 Year Limited Warranty has you covered! For complete warranty details visit our website at www.therabath.com.

### Pliable, therapeutic paraffin
delictably soft, undeniably youthful.

Therabath Professional Paraffin Wax remains residue-free, while building thick, pliable layers in an easy-to-remove glove. Our paraffin is soft and elastic eliminating the mess found with dry, brittle paraffin waxes. Exercising the hand with cooled wax during rehabilitation will intensify the therapy. Or, enjoy soft, youthful, deeply moisturized, and healthy looking skin!

**Therabath Professional Paraffin Wax:**
- is made in the U.S.A
- contains only **FDA Food Grade** ingredients
- is odorless, colorless and hypoallergenic, then lightly scented and tinted
- contains only **premium quality** essential oils
- is expertly blended with required oils to remain soft and supple, while leaving no oily residue - no need to add additional oil!
- is suitable for use in all paraffin baths

---

### Coconut Oil Properties:
- Naturally antibacterial, anti-fungal, and antimicrobial.
- Helps to reduce inflammation.
- Will not clog pores.
- Readily absorbed into the skin making it an excellent moisturizer.
- Leaves the skin silky, without leaving a surface residue.

---

**We've taken our paraffin waxes to the next level of moisturization!** Replacing our standard emollient of white oil (which traps moisture on the surface of the skin) with a readily-absorbed coconut oil changes the entire dynamic of the paraffin treatment! The heat from the paraffin drives the coconut oil deep into the skin leaving a silky smooth, super-moisturized texture and feel!
Extend the Heat with Insulated Comfort

Comfort Heated Mitts
When you are away from your Therabath Paraffin Bath, these heated mitts provide comfort and warmth! Simply microwave to warm, (or place in the freezer to chill). The ultimate gift of relaxation at an affordable price! Sold as a single mitt, or as a pair of 2 mitts.
Filled with rice & herb blend. Luxurious blue fabric outer cover is Machine-washable. Made in the U.S.A.

Intensive Hydrating Cream (c-d)
Ultra-rich, non-greasy formula intensifies the hydrating results of paraffin treatments. Enriched with aloe vera, vitamin E, and natural emollients. Unscented. Made in the U.S.A.

Pre-Treatment Cleansing Spray (a-b)
Refreshing formula cleanses skin and nail area prior to paraffin application. Contains oils of lavender, camphor, and peppermint. Made in the U.S.A.

Plush Insulated Boots
Feature a contoured toe for the best fit, and hook/loop closure. 8 oz fiber-fill insulated. One size fits most. Made in the U.S.A.

Mitt/Boot Liner Bags
Liners hold in heat for a longer therapeutic treatment and keep mitt/boot linings clean. 100 pack, durable, disposable. Made in the U.S.A.

Mitt/Boot Liner Bags - item # 2420
Stapled to header card for easy dispensing.

Mitt/Boot Liner Bags - item # 2411
Stapled to header card for easy dispensing.

Mitt/Boot Liner Bags - item # 2410
Stapled to header card for easy dispensing.

Enhance Therabath Paraffin Treatments

Convenient kits include all of the items needed for the most effective hand, foot or face paraffin treatment.

**Super Accessory Kit**

- 2 Insulated Mitts
- 2 Insulated Boots
- 80 Paraffin Application Strips
- Paraffin Bowl with Handle
- Porcelain Paraffin Bowl with Handle
- Ceramic Paraffin Ladle
- 4 oz. Hydrating Cream
- 4 oz. Pre-Treatment Spray
- 1” Facial Brush
- 2” Body Brush
- 100 Mitt/Boot Liners

Super Accessory Kit - Item # 2403

**Hand ComforKit™**

- 2 Insulated Plush Mitts
- 100 Mitt/Boot Liners
- 4 oz. Hydrating Cream
- 4 oz. Pre-Treatment Spray

Item # 2400

**Foot ComforKit™**

- 2 Insulated Plush Boots
- 100 Mitt/Boot Liners
- 4 oz. Hydrating Cream
- 4 oz. Pre-Treatment Spray

Item # 2401

**Facial Treatment Kit**

- 80 Paraffin Application Strips
- Porcelain Paraffin Bowl with Handle
- Ceramic Paraffin Ladle
- 1” Facial Brush
- 2” Body Brush
- 100 Mitt/Boot Liners

Item # 2402

**Facial ComforKit™**

- 2 Insulated Plush Boots
- 100 Mitt/Boot Liners
- 4 oz. Hydrating Cream
- 4 oz. Pre-Treatment Spray

Item # 2401

More kits available online at www.therabath.com!

**Application Strips**

- Stretchy and disposable
- 40ct, 2.5” W x 17” L
- Made in the U.S.A.

Item # 2207

**Ceramic Paraffin Ladle**

Scoop paraffin from Therabath unit to bowl, or to bag for “no-dip bag & ladle” treatments.

- 2 oz. capacity

Item # 2642

**Porcelain Paraffin Bowl**

Heavy-duty with sturdy handle. Easily transport paraffin from Therabath unit to the treatment area. 9 oz. capacity

Item # 2641

**Application Brushes**

Natural bristles. Feature glossy white handles.

- Sizes: 1” facial or 2” body
- Made in the U.S.A.

1” - # 2209, 2” - # 2210

**Therabath Quick Tips**

**Face**

1. Use a headband to hold back hair, remove all makeup, cleanse skin, apply desired serums and place cotton pads over eyes.
2. Ladle approximately 1 cup of paraffin into a small bowl. Set aside bowl and a natural bristle paraffin brush.
3. Hold the edges of a pre-cut gauze facial mask or paraffin strips with both hands, saturate with wax and then allow excess wax to drip off.
4. Lay coated mask or strips on face adding additional layers of wax using the paraffin brush or adding layers of strips.
5. Relax! Remove mask or strips by peeling gently from the neck up.
6. Allow skin to cool before applying makeup.
7. Clean application brush by soaking in hot water until soft, then squeeze out excess water with a paper towel.

**Body**

1. Place the Therabath and 4-8 paraffin strips as close to the work area as possible. Suggested areas include: elbows, knees, lower leg/calf, thigh, forearm, back, neck or shoulders.
2. Holding one end of strip, dip entire strip in paraffin and remove. Hold over Therabath until paraffin stops dripping.
3. Wrap area to be treated, stretching strips slightly. Apply additional strips, wrapping and overlapping by half so area has at least 2 layers of paraffin coated strips. The more strips, the more heat and length of the therapy.
4. Leave strips in place for approximately 10 minutes.
5. Slightly massage strips to loosen, tear and remove.
6. Discard used strips and repeat as necessary.

**Feet**

1. Mist feet with Pre-Treatment Spray.
2. Apply a light coat of Hydrating Cream.
3. Spread toes slightly, and slowly immerse into paraffin. Remove foot immediately from paraffin.
4. Wait 5 seconds, allowing the paraffin "shine" to go away, indicating the wax is dry.
5. Repeat steps 3 and 4 to make a warm "glove":
   - 3 times - light therapy and skin moisturizing
   - 5-15 times - intense therapy. The more layers of paraffin, the more heat and length of the therapy.
6. Cover foot with plastic liner bag and plush boot.
7. After 5-30 minutes, remove boot, move toes and ankle to loosen paraffin, removing it in liner bag.
8. Discard used paraffin.

**Hands**

1. Cleanse hands or mist with Pre-Treatment Spray.
2. Apply a light coat of Intensive Hydrating Cream.
3. Spread fingers slightly, hold the hand flat, and slowly immerse into paraffin. Remove hand immediately from paraffin.
4. Wait 5 seconds, allowing the paraffin "shine" to go away.
5. Repeat steps 3 and 4 to make a warm "glove":
   - 3 times - light therapy and skin moisturizing
   - 5-15 times - intense therapy. The more layers of paraffin, the more heat and length of the therapy.
6. Cover hand with plastic liner bag and plush mitt.
7. After 5-30 minutes, remove mitt, move hands and fingers to loosen paraffin, removing it in liner bag.
8. Discard used paraffin.

For information regarding hygiene of paraffin treatments, visit www.therabath.com
Cleaning

1. Clean bath when you see sediment has built up on bottom of inner tank.
2. Unplug unit, remove lid & grille and allow paraffin to completely harden overnight.
3. Plug in unit for approximately 10 minutes to melt edges of hard paraffin “cake” around the inside of the tank. Lay out paper towels to set wax “cake” on.
4. Turn unit upside down (keeping close to table surface). Holding the long edges of the tank, squeeze the tank outwards away from the wax, shaking gently until the cake releases and slides on to the table surface.
5. Blot up remaining paraffin in tank with a soft paper towel and wipe unit dry. TIP: a hair dryer will melt hard paraffin drips, then blot them up with a paper towel.
6. Replace fresh paraffin in the tank, place the grille on top of paraffin, and replace lid.
7. Plug in the unit.
8. After paraffin has melted (6-8 hours), add additional wax as necessary to bring up to required level.

Visit www.therabathpro.com for videos and instructions on cleaning and maintaining your Therabath Paraffin Bath.
What’s New

TheraCOCO™ Paraffin Wax replaces the standard white oil we use in our classic line of paraffin waxes with Coconut Oil that is readily-absorbed and easily soaks in to the skin.

TB9/TB10 ADJUSTABLE BATH
The Therabath Model TB9 (110V) / TB10 (220V) Adjustable Temperature Paraffin Bath features a NEW SAFE QUICK MELT setting, melting the paraffin in half the time of our Model TB6/TB7, but in an always-safe temperature range! No need to wait for the wax temperature to come back down before safely dipping! Also has a Lifetime Warranty!
